Third-Class OTC drugs

for wounds, such as minor cuts, scrapes, abrasions, hangnails, and clefts

## Coloskin®

Liquid Plaster

Coloskin® is for wounds, such as minor cuts, scrapes, abrasions, hangnails, and clefts.

Applying Coloskin® may cause an instant smart, but it would coat a clear and thin film over wounds, and keep wounds from dirt and germs.

And, because the thin film would not be easily peeled off by work to use water such as cooking or washing, Coloskin® is a vulnerary which does not require an ordinary bandage.

### **WARNINGS**
